

SHORT SESSION  
OF LEGISLATURE

Little Work Was Done by Either House at Today's Session Except To Wait.

## GOVERNOR'S VETO

He Refuses the Thirteenth of the Senate's Bills for the Present Session.

(Special to The Gazette.) Madison, Wis., May 22.—Another veto was sent to the senate by Governor La Follette. This is his thirteenth during session of senate bills. Today's veto disapproves the bill increasing the forces in the state land office for which the governor says there is no necessity whatever.

Brief Sessions  
Sessions of both houses were brief today. Two bills were recalled from the governor for correction, one being the Milwaukee viaduct bill, from which a clause giving the treasurer the percentage for selling the bonds was stricken out, and the provision for the submission to the vote of people added.

AMERICA HOME  
OF FREE CREEDS

Chance for Animosity Between Jew and Gentile Is Nearly Vanished.

Portland, Ore., May 22.—President Roosevelt, in his address at Salem, made a pointed reference to the recent Jewish massacre at Kishinev, although he did not refer directly to Russia, to its government, or to the bitterness of the racial hatred between Russian and Jew in that country. The president congratulated his audience that the United States was free from the curse of religious hatred and persecution. He said:

"Fundamentally, in this country we are free from the dreadful curse of religious hatred and persecution which has worked so much evil in times past in the world at large. We realize that a corner stone in the building of this government must be not merely religious toleration before the law but a genuine religious toleration among ourselves.

America Thrice Blessed.  
"We in America are to be held thrice blessed that the chance for animosity between Jew and Gentile, or between Christian sects, has become infinitesimal to the vanishing point.

"Once more, not only must there be no line of demarcation among our people on grounds of creed or grounds of sect, but there must be no line of demarcation drawn among them on grounds of class or occupation.

"There is but one rule to follow in public life, as in private life, and that is the old, old rule of treating your neighbor as you would like your neighbor to treat you; the old rule of decency, of honesty, of square dealing as between man and man. Just so long as our people keep character, so long as they have the fundamental virtues of decency, of courage, of common sense, just so long we may rest assured that this country will go onward and upward until it occupies a place among the nations of mankind such as has never before been known since the days when history was first written."

Lays a Corner Stone.  
President Roosevelt traveled through the Willamette valley, stopping only at Salem and Oregon City before reaching this city. In Portland the president laid the corner stone of the monument to the memory of Lewis and Clark, and attended a banquet given in his honor by the citizens of Portland.

A notable incident at Salem attracted general attention to the president's kindly regard for little children. An invalid child, anxious to see the president, had been carried on a stretcher to the curb of one of the streets through which his carriage was to pass. The president stopped his carriage, alighted, and kissed the little girl, the crowd applauding with enthusiasm.

## CONVICTS DINE IN NEW HALL

Prisoners at Joliet Take Their First Meal En Masse.

Joliet, Ill., May 22.—The new dining hall of the state penitentiary has been opened. The convicts sat at the tables and ate from china plates. Twelve hundred marched in from the shops in a body. Superintendent Mallory, members of the pardon board and several citizens were among the visitors who watched the proceeding. For twenty-two years the convicts have eaten in cells and they appeared much pleased with the innovation. The new dining hall cost \$45,000. The men were given all they wanted to eat, waiters assisting constantly up and down the aisles. The hall is capable of seating 1,500.

FAMOUS MINE IS  
LOSING MONEY

Owners of "Independence", at Cripple Creek, Declare Mine Is Not a Paying Venture.

London, May 22.—There was a stormy session of the stockholders of the Stratton Independence Mine company of Cripple Creek, Colo., at the Cannon street hotel today. The earl of Chesterfield presided. Strong objections were made to the way in which the reserves of the company had been invested, and some of the shareholders declared that their money was being gambled with.

After considerable discussion over the annual report an amendment that it and the accounts be received but not adopted, and that the meeting be adjourned, was carried by an overwhelming majority, only two votes being recorded against the motion.

A dispatch from London last October said the Venture corporation, promoter of the Independence mine, was about to bring suit against the estate of W. S. Stratton for \$5,000,000 damages because of heavy losses suffered by the shareholders in the mine. It was stated then that non-sensational developments were expected.

## STATE NOTES

Joseph B. Keller, a dock laborer at Racine, fell forty feet, striking squarely on his head, and was uninjured.

The Green Bay common council has abolished the office of city engineer; also the street and bridge committee.

George P. Vanden Berg and wife, wanted at Green Bay on a charge of forgery, are under arrest at Cedar Rapids, Ia.

Lightening struck the home of Paul Ringel at Elkhardt Lake, and a bed in which two children were sleeping was moved eight inches. Maryann Walentarski, a Pole, 42 years old, was struck by a passenger train on the Milwaukee road at Racine on Thursday and received injuries from which he died.

Sheriff Sullivan accidentally shot himself in the leg at Fond du Lac Wednesday, rested comfortably Thursday and no serious results from the shot are looked for.

An effort was made Wednesday to secure the reorganization of the Kenosha state bank, recently closed by the orders of the state bank examiners, but little interest was taken in the meeting.

Col. N. E. Morgan, commander of the Second regiment, Wisconsin National guard, lost the middle finger of his right hand at the first joint Wednesday afternoon by a stone falling on it at Appleton.

The tails of 706 rattlesnakes have been presented to the county clerk at Prairie du Chien for bounty on which the county pays 50 cents each. Thirty-eight wolves, on which a bounty of \$5 each is paid, were also presented.

BRUTAL TREATMENT  
OF INSANE DAUGHTER

Ship's Officers Prefer Charges of Cruelty Against Mother of Girl Who Is Demented.

San Francisco, Cal., May 22.—Among the passengers on the steamer Coptic, which arrived from the Orient were Mrs. Dev. Miller, wife of a Chicago metal manufacturer, and her invalid daughter Marie. The girl, who is about 14 years old, is insane from overstudy. The surgeon of the steamer, Dr. Irons, and other officers, strongly denounce the treatment of the girl by her mother. At times the child was violent, and then, it is alleged, her mother used a leather whip on her. At other times she tried to subdue her daughter by pressing a wet towel over her face.

Officers of the vessel finally took control of the child, taking her practically out of Mrs. Miller's hands. Twice during the voyage from Hong Kong the girl Marie tried to kill her mother, once attempting to strangle her, and another time trying to stab her with scissors. Officers of the ship say they would have had very little trouble with the girl if she had been entirely in their hands. Mrs. Miller is a lecturer on the Hindoo religion, and has been living in Calcutta.

## NICARAGUAN REBELS SUCCEED

General Estrada, Leader of Government Forces Is Killed.

San Francisco, May 22.—Eugene J. Gruettner of Salt Lake City, who arrived from Corinto today on the steamer Newport, says General Estrada, leader of the forces of President Zelaya in Nicaragua, was killed in battle with the insurgents near Rivas on April 27. His troops were routed with great loss, and the revolutionists succeeded in capturing a large quantity of arms and ammunition. The insurgents now have possession of the port of San Carlos and have complete control of Lake Nicaragua.

Profitable Railroad Deal.  
The Mexican bandits, who got away with \$40,000 in silver bars from an express train hit the profitable side of train robbery.—Pittsburg Times.

Fire was discovered Thursday morning in a large rag duster in the rag room of the Rayne mill of the Fox River Paper company at Appleton. It is supposed to have originated from spontaneous combustion. The damage does not exceed \$300.

ST. PAUL HAS  
A BIG FIRE

Plant Warehouse Engineering Works Go Up in Smoke—Cause Large Loss.

## WATCHMAN HURT

Thousands See the Blaze and a Panic Causes Injury to Many Spectators.

(Special By Scripps-McLain.) St. Paul, May 22.—The Plant Warehouse Engineering works located on the west levee, burned this morning and the loss is estimated at one hundred and sixty thousand dollars. The night watchman, Eehlin, was probably fatally burned.

Thousands See Slight  
Thousands of spectators stood on the levee and watched the big building go up in smoke while the fire companies tried to confine the blaze to the one set of buildings, hindered by a high wind that blew the fire towards adjoining structures.

Crowd Frightened  
Reports that the flames were in the near vicinity of a building where several tanks of gasoline were stored caused a stampede in which many persons were seriously injured and some forced into the river.

CASTRO DEFEATS  
ALL OPPONENTS

Affairs of Workingman's Association Believed To Be in Bad Shape.

Tucacas, Venezuela, May 22.—A messenger from Barquisimeto, capital of Lara province, brings the news that the government troops under Gen. Vincente Gomez have captured that town. Barquisimeto was fortified and it was there that the forces of the revolutionists were concentrated three weeks ago when Gen. Matos landed again in Venezuela and took over the command of the revolutionary forces.

Gen Matos a Fugitive  
Coro, Venezuela, May 22.—The revolutionary general Matos, with a few followers who have abandoned Barquisimeto, is reported to be in the neighborhood of Calure seeking to join his lieutenant, Gen. Riera, who is supposed to be near this town or trying to reach the coast with a view to returning to the island of Curacao.

WOULD BANISH  
ALL BULGARIANS

Turkish Official Proposes to Deport All Macedonian Sympathizers to Anatolia.

Constantinople, May 22.—Hilmi Pasha, inspector general under the reform movement in European Turkey, is credited with having formulated a plan for the colonization of Anatolia and the islands of the archipelago by Bulgarians, who he proposes to deport wholesale from Macedonia. It is doubtful, however, if the powers will permit this.

## DR. BRADLEY DECLINES CHAIR

President of Blackburn University Will Not Go to Illinois College.

Springfield, Ill., May 22.—Dr. Walter Bradley, president of Blackburn university, Carlinville, has declined the chair of Latin and the deanship of Illinois college, Jacksonville, which was tendered him by the officers of that institution. Dr. Bradley is in favor of Blackburn university remaining in Carlinville, and opposed the proposition to merge the university with Illinois college made several months ago.

## LAND IS GRANTED BY MISTAKE

British Columbia Department Makes Gift of 480 Square Miles.

Vancouver, B. C., May 22.—By a curious mistake in the provincial department of the lands and works the Island Power company was granted 480 square miles of timber lands over and above the tract applied for. The discovery has been made and acknowledged by W. H. More, deputy minister of works. How the government will rectify the error is not announced.

## PUTS IN CLAIM FOR \$5,000,000

State Department Reminds England of Charles Brown's Loss.

Washington, May 22.—The state department has called to the attention of the British government the claims of the late Charles Brown, an American civil and mining engineer, for compensation for lands of which he was deprived by the Boer government before the South African war. The amount of the claim is \$5,000,000.

MANY CYCLONES  
IN THE WEST

Severe Criticism by Payne  
Postmaster General Does Not Charge Criminal Intent, but Declares the Administration of the Bureau to Have Been Poorly Conducted.

Washington, May 22.—Postmaster General Payne announces that the deficit in the free delivery branch of the postoffice department, of which A. W. Machen is the superintendent, now aggregates \$227,300, of which \$105,700 is in the regular free delivery branch and \$121,600 in the rural free delivery service. The postmaster general, while imputing no criminal motive to Mr. Machen, for the first time publicly criticized that official for his "loose administration." Mr. Payne said:

Criticizes Machen.  
"It is very reprehensible for a bureau officer to have a deficit of \$227,300 rolled up on the last of May. It was bad, very bad administration. A bureau officer should not incur a deficit without consulting his superior officer, the postmaster general. I cannot stand for that kind of administration, and I do not approve of it. An official must be held to a more strict accounting. I do not say there was anything criminal or anything wrong in Mr. Machen's action, but it was certainly loose administration, and he should have had his business more in hand. I believe, however, that congress will quickly vote the money to cover the deficiency."

May Ask Explanation.  
Mr. Payne said that the matter would be looked into and a communication might be sent later to Mr. Machen asking for an explanation of the condition of affairs.

Continuing, Mr. Payne said: "This is not the first time that a deficiency has occurred in the free delivery service, but I regret its existence. At the opening of the last congress Mr. Machen pointed out that, without additional appropriations, no more routes could be installed beyond those ready to be installed Jan. 1. He said, however, if congress appropriated \$500,000 for the purpose the work could be continued during the rest of the fiscal year. This appropriation was promptly made, but it was exhausted."

Deficit Grows.  
"Despite this fact the office (the free delivery office) was going on increasing the deficiency, and if we had not taken steps to curtail the expenditures and suspend the establishment of routes until the beginning of the next fiscal year, the deficit would have been much larger. It was not good administration."

Early Estimates Too Small.  
The postmaster general said that part of the deficiency was discovered before Mr. Machen was given his leave of absence.

"He reported a part of it himself," Mr. Payne added. "First Assistant Postmaster General Wynne recently reported to me that a \$20,000 deficiency existed in the rural service and Mr. Wynne and I agreed that by economical measures the department might eliminate that. I suppose that was the amount reported to Mr. Wynne."

Machen's Defense.  
Superintendent Machen, when told of the postmaster general's criticism about the free delivery deficit, said there had been no intention on his part to deceive his departmental superiors. He said:

"I forwarded to Mr. Wynne at the close of April a statement of the deficit then existing. Those figures were on routes already established. The figures for routes to be established May 1 and May 15, and June 1, and June 15 had not been then put on the books by the bookkeeper. Therefore, the deficit of \$20,000 was not a misrepresentation of the actual condition of the appropriation at that time. The pressure for more rural routes was very strong, and I yielded to it beyond what the appropriation really provided."

Orphans Burn to Death.  
Merrill, Mich., May 22.—Pearl and Edna Gill, aged 3 and 5 years, respectively, orphans, who had been adopted by Mrs. E. L. Butler, lost their lives while asleep in a fire that destroyed the Butler home.

## MILWAUKEE'S GROWTH.

Milwaukee, Wis., May 22.—Milwaukee has a population of between 315,000 and 320,000, according to figures obtained for the new city directory. The increase during the last year has been between 7,000 and 12,000.

## MILITIA AT JOH TRIAL.

Jackson, Ky., May 22.—Circuit Judge Redwine has mailed to Governor Beckham a request for militia to attend the special term of circuit court called for next Monday and at which Curt Jeff will be tried.

## Disease in Blankets.

London, May 22.—An outbreak of enteric fever on board the reformatory ship Cornwall, which is lying at the mouth of the Thames, has been traced to fever-infected army blankets from South Africa.

George Rollins, a Pittsburg blacksmith, aged 55, committed suicide by taking laudanum.

ALEXANDER TO  
DIVORCE DRAGA

Servian King Will Secure a Separation from His Unhappy Wife.

## WILL BECOME NUN

She Will Enter a Convent as Soon as the Decree Is Granted the King.

(Special by Scripps-McLain.) Paris, May 22.—It is reported here that Queen Draga of Servia will agree to a divorce from her husband, King Alexander and will make no protest whatsoever providing she can retire to a convent when released from her marriage vows.

Unhappy Queen  
Queen Draga has been very unhappy with her husband for many years. She has many followers among the Servian nobility who believe she is wronged and hold Alexander responsible for her unhappy condition.

Wants Divorce  
King Alexander has long been desirous of securing a divorce and thus far Queen Draga has been the one to oppose it. That she will now allow it is a surprise to the courts of Europe.

MANILA UNION  
BOOKS SEIZED

General Gomez Captures the Rebel Stronghold and Defeats Insurgents with Loss.

Manila, May 22.—Attorney General Willsey has seized the records and accounts of the Workingmen's union for noncompliance with the provisions of act 701 of the Philippine commission, which requires that all societies and associations submit annual statements to the insular treasurer.

It is probable that the investigation of the books will disclose the fact that there has been gross mismanagement of the funds of the organization. It is believed that the money of the union has been diverted from its regular purpose by Gomez, the president of the union, which is also the head of the nationalist party, and was recently accused of furnishing funds to the ladrones in certain provinces.

Gomez is now on a tour of provinces, where he is holding meetings and agitating questions which border closely on a violation of the sedition act.

GIVES MONEY TO  
A SOLDIER'S REST

Daughters of The American Revolution Plan a Novel Building in Manila.

Washington, D.C., May 22.—A committee representing the Philadelphia chapter of the Daughters of the American Revolution today handed Secretary Root a certified check for \$10,000 to be used in the erection of a memorial building at the new military post at Manila, P. I. The fund represents contributions made by the Daughters and their friends in Pennsylvania and elsewhere, and is intended solely for the benefit of the enlisted men of the army.

## NAKED DOUKHOBORS ON MARCH

Mounted Police Arrest Twenty-six of the Male Fanatics.

Yorkton, N. W. T., May 22.—Twenty-six male Doukhobors were arrested and brought here for practicing their "Adam and Eve" religion in their villages. Other Doukhobors objected to this sort of thing and drove them out. When near the village the men disrobed and were marching into the town stark naked. A company of mounted police was near at hand and quickly captured the fanatics and brought them to Yorkton, where they are held under arrest.

## DENVER STRIKE IS CALLED OFF

Arbitration Proves Successful in Ending the Labor Trouble.

Denver, Col., May 22.—The strike which for several days practically paralyzed the business of the city, involving nearly 10,000 men and women and threatening to force into idleness twice that number of union members, was settled through the efforts of a committee of the chamber of commerce and one from the local typographical union. Both sides made concessions.

## Child Labor Necessary.

Compulsory education has been defeated in the West Virginia senate on the ground that it would destroy Wheeling industries and deprive many widows of their means of support which now come from the earnings of their young children.

NEGRO POSES AS  
A VICE CONSUL

Colored Servant of an Antwerp Family Has a Good Time on an Assumed Title.

Antwerp, May 22.—A negro valet named A. L. Allen, in the service of an Antwerp family, was allowed a vacation some time ago in order to go to Washington to see his family. He returned from New York on the steamer Kroonland, but allowed himself to be looked as "United States vice consul at Antwerp." He was thus placed at the head of the first class passenger list and much attention was paid to him by the personnel of the steamer.

Several New York papers announced the departure of "A. L. Allen, United States consul at Antwerp on the Kroonland." It so happened that United States Consul Mannheim was on the same steamer. Words cannot express the feelings of this official on seeing the interest taken by the other passengers in the negro, who posed as one of his colleagues. On arriving at Antwerp the valet resumed his duties at bootblack, door tender, and general utility man at his former master's to the consternation of the personnel of the Kroonland. It is needless to add that A. L. Allen of Washington is not in the consular service.

## SPARKS FROM THE WIRES

Milwaukeeans have arranged a benefit for sufferers as a result of massacres in Russia.

Six thousand Jews are to be brought to Chicago from Kishinev and the other stricken towns in Bessarabia.

The government troops of Venezuela have captured the town of Barquisimeto, which has been the headquarters of the rebels for some time. It is said that Senator Hanna is engaged in a battle for his political life, due to the jealousy of Senator Foraker.

The interstate commerce commission is to make vigorous effort to force presidents of the anthracite coal roads to produce books and answer questions.

Fifteen hundred freight handlers employed by railroads entering St. Louis join the strike warehouse men, practically tying up freight traffic. Mayor Knotts of Hammond, Ind., has issued a unique proclamation, designating May 23 a holiday, for the purpose of cleaning up the city.

An Ann Arbor medical student has disappeared, leaving behind a note telling of mystic warning from a Mexican secret organization that his life was forfeited.

One person was killed and four injured in a series of gas and oil explosions at New York.

The revolt in Croatia is extending to all parts of the kingdom, and threatens to spread to Dalmatia.

Rains east of the Mississippi have quieted crop fears and precipitated a general selling of grain.

SAYS RICH AMERICANS  
ARE BENEATH SAVAGES

Physician Declares That Their Vice and Immorality Would Put to Shame the Benighted Heathen.

St. Paul, Minn., May 22.—In an address before a state medical association Dr. R. St. John Perry, a prominent physician, declared that the vice and immorality of wealthy Americans would shame an African savage, or even the Mohammedans of Asia, among whom he has practiced. He said:

"For morality and temperance the average American of money ranks below the ignorant African savage. Christians look with abhorrence on Mohammedans who take plural wives and consider it proper; they despise ignorant Africans who indulge in admitted polygamy. Yet, if the truth were known, husbands of New York and Chicago and all our large cities indulge secretly not only in plural wives but in three the wives of these so-called degraded peoples.

"The Mohammedan is true to his plural wives, yet many of our men are untrue to three the Mohammedan's number. The spread of disease attendant solely upon unrestrained vice should cause the gravest alarm."

## TO ADDRESS EMPEROR WILLIAM

British Catholics Want Germany to Protect Interests in East.

London, May 22.—An address to Emperor William is being widely signed here, expressing the hope of the British Catholics that Germany may be entrusted with the protection of Catholic interests in the east and assuring the emperor that the British Catholics will labor unflinchingly to remove the misunderstandings between Great Britain and Germany and for the promotion of the friendliness of the two countries.

## Drought in New York.

New York, May 22.—Dispatches from various parts of this state report that rain has not fallen for five weeks and that vegetation is withering and pasturage has become scant.

## Alderman Drops Dead.

Decatur, Ill., May 22.—Archibald F. Wilson, head of Decatur Gun company, member of city council, dropped dead of apoplexy.

PREDICTS PEACE  
IN LABOR WORLD

John Mitchell, President of Mine Workers, Looks for Peaceful Settlement Soon.

## IS BUT TEMPORARY

He Does Not Think Existing Conditions Will Continue Much Longer.

(Special by Scripps-McLain.) New York, May 22.—John Mitchell, president of the mine workers, declared today that the labor troubles that are convulsing the country will all be over within a month and that he looks for peaceful settlements in every case.

His Opinion  
"Strikes and differences," he said, "are general between employer and employee are but temporary in my opinion and should be settled quickly. There is no doubt in my mind they all cease by the end of the present month."

Time of ear  
He explains the trouble by saying that around about the first of April and May the renewal of contracts occurs and this causes much prominence to be given to the unions and their troubles.

ROSEBERRY DENIES  
HE ALTERED VIEW

Says He Has Not Become a Reciprocist, and Still a Free Trader.

London, May 22.—Lord Rosebery today denied that his speech at Burnley on May 19 was an endorsement of Chamberlain's speech at Birmingham May 15, in which the colonial secretary urged reciprocity between England and the British colonies.

Lord Rosebery expresses surprise that such an interpretation should have been given to his Burnley speech. He explains that he was addressing a nonpolitical audience and considered himself obliged not to touch on the controversial aspects of the case. Hence Chamberlain's proposed scheme was submitted for impartial examination, whereby the objections to it would be revealed.

Liberals Bound to Free Trade  
The Westminster Gazette says it understands that Lord Rosebery adheres to his previous declarations that the liberal party is bound to free trade and that anything like an imperial commercial league would weaken the empire internally and excite the permanent hostility of the whole world.

Chamberlain Defends His Plan  
In a letter to a constituent Mr. Chamberlain further emphasizes his belief in the necessity for an imperial commercial league. He says:

"I am firmly convinced that the prosperity of this country depends largely on our trade with the colonies which under a wise system of mutual concession will increase by leaps and bounds. We have been apt in the past to consider too much the advantage of buying cheaply and not to pay sufficient attention to methods whereby we may have the means that enable us to pay at all. Increased wages are even more important to the working classes than reduced cost of living."

Mr. Chamberlain adds that he has the fullest confidence in the working classes and in their power to realize the "great issues which depend on our present action."

CONTRACTOR OFFERS  
BRIBE TO GOVERNOR

Proposes to Do Work for the State and Give the Executive 10 Per Cent Commission.

Topoka, Kan., May 22.—Gov. Bailey has had his first experience with a briber.

"The fellow was a mechanic," said the governor. "I asked him what he would charge to do a certain amount of work, and he had figured for some time before he finally called me to one side and in an excited manner said: 'I am going to do this thing for \$60, and 10 per cent of that goes to the governor.'"

"My first impulse was to kick him out of my office, but I saw that he was not in the habit of doing things that way, and I asked him what he would take to do the job for the state and charge nothing for the governor. He finally agreed to take \$50 for the work."

In Honor of John Ericsson.  
The Swedes of New York city and of the cities along the Jersey shore are planning a monster demonstration on July 31 in celebration of the one hundredth anniversary of John Ericsson's birth and the tenth anniversary of the raising of his statue in Battery park. The day is always observed by the Swedes, but this year the celebration will be of unusual scope.

## PRISON LABOR CONTRACTS FIXED

TO BE LET AS USUAL TO FACTORIES.

### WORK CHANGED SOMEWHAT

There Will Be a Greater Variety of Labor, Favoring the Younger Convicts.

The state board of control has all the bids submitted to it for the contracts for the labor in the state prison at Jansville, and has invited prospective bidders to submit new proposals, these to be opened July 6.

This is the result of an agreement between the board and the representatives of the labor unions of the state and also the result of the failure of the labor unions to effect a change in the policy of the state of the legislature now ended, through some acts or act of the legislature. The labor organizations strove to cause the state to abandon its present prison labor contract policy and to abandon the custom of leasing the prisoners to companies to be employed in productive labor. So confident were the representatives of the unions that the present legislature would change the policy of the state that they prevailed upon the state board of control to allow the letting of contracts to drag, and finally an agreement was reached by the board of control and the representatives of the labor unions that nothing should be done by way of letting the contracts until after the legislature had adjourned.

**Wanted End**  
The board had waited for the end of the session and the legislature has not passed any enactment whatever affecting the prison labor contract policy of the state and therefore the decision has been made to advertise again for bids.

Several bids were introduced in the legislature, intended to accomplish the purpose of the unions to abolish prison labor contracting in Wisconsin, but none of them made any degree of progress toward being enacted into law.

**The Contracts**  
The contract for the convicts in the state prison at Jansville, held by M. D. Wells & Co., of Chicago, manufacturers of shoes, expired a year ago, but was continued under agreement until the next contracts should have been let. Under the old contract the state receives 50 cents a day for the labor of each convict, each working ten hours a day. The income to the state from the labor of the convicts at the state prison and at the state reformatory aggregate \$50,000 a year, but it is understood that contracts can and will be made when the new bids are opened in July, according to which the income will be largely increased.

**Old Plan**  
This was recommended two years ago that the labor in the state's prisons, particularly the labor of the younger convicts in the reformatory, be more diversified. His reason was that the younger inmates are usually incarcerated only for a short time and the state ought to teach them useful employment of various nature, so that when they are released they would be able to become useful members of society. He urged this from reason of right and justice to the offenders, who were sentenced to prison, and for the reason that such a policy would be wise economically for the state.

**Studied Problem**  
The state board of control took the recommendation and made a extensive study of the problem. The members made several trips of investigation to other state prisons and reformatories, going to most of the middle west states and visiting several prisons in the east. It was intended to incorporate many of the ideas employed elsewhere in the Wisconsin system. Among the industries expected to be used in the Wisconsin prisons are brickmaking, weaving of grass mats and straw goods, shoemaking and others.

**At Mississippi Club**  
Each night this week the Mississippi golf club house has been the scene of an informal supper, followed by dancing, ping pong, or some other form of amusement. Last evening two parties made merry at the links. A farewell supper was tendered Mr. and Mrs. A. L. McIntosh, who leave soon for La Crosse. Those present were Mr. and Mrs. A. L. McIntosh, Mr. and Mrs. W. Watt, Misses Mabel Jackson, Janet Ford, Harriet Carpenter, Messrs. Al Schaller, David Atwood, and Charles W. Bliss.

The other party consisted of the Messrs. Harriet Bostwick, Louise Shearer, Mabel Jackson, Messrs. S. Echlin, E. Whitton, B. Palmer, and Mr. and Mrs. E. H. Peterson.

### CITY DEATH ROLL

**James H. Clatworthy**  
James H. Clatworthy, at one time foreman of the Doty works, died at Elmira, N. Y. A telegram to that effect was received yesterday by J. P. Wright, brother-in-law of the deceased.

**Harry P. Brunson**  
The remains of Harry P. Brunson were laid at rest yesterday afternoon at Oak Hill. Funeral services were held from his late home on Yuba street. Rev. J. T. Henderson of the Presbyterian church and Rev. W. F. Brown, formerly pastor of the same church, and now of Beloit, officiating. Mrs. Rexford beautifully rendered the song service. Henry Nott, Oscar Bucklin, George Wright, and J. T. Fitchett acted as pallbearers. Mrs. T. W. Weaver of Beloit, H. Haines of Beloit, Marshall G. Cogswell, wife, and daughter of Davis Junction, George W. Lynn and wife of Kings, Ill.

## VISITED FARMS IN MISSOURI

Wilson Lane Has Returned from a Trip to Iowa and the Southwest.

Mr. Wilson Lane of this city recently returned from a week's trip to southern Iowa and Missouri. While at Bloomfield, Davis county, Iowa, Mr. Lane visited with two cousins over fifty years old, whom he had not seen before, a Mr. John and Carl Lane. They are carpenters and contractors in Bloomfield.

Mr. Lane said that farming work was well along in spite of a wet spring. Corn is all planted and grass looks well as do oats and wheat also. There was much wind but in spite of the wind and rain the farmers appeared contented. It rained almost incessantly during Mr. Lane's stay in Missouri. He visited Savanna, and Cedar Rapids, Ia., and spent two days at Ottumwa on the Des Moines river.

**Saw Big Sale**  
He was much impressed with the appearance of the country, finding fine farming land everywhere with good stock. While at Bloomfield Mr. Lane attended a sale of Polled Angus cattle that realized \$60,000 for their owners. Bloomfield is only a small town of 2500, but this sale shows the interest taken in that part of the country. In pure bred beef cattle. The long horn Texas steer is fast passing away, said Mr. Lane, and in its place is found the thoroughbred beef animal. Mr. Lane also saw some fine herds of Hereford and Shorthorn cattle. One herd of Herefords in particular he is planning to purchase for one of his own farms.

**Belief on Cattle**  
It is the prevailing sentiment of stockmen in Iowa and Missouri that the Angus and Herefords are the best "rustlers" when turned out on the range, but that the Shorthorn, when barn-fed makes the most gains. Mr. Lane is much interested in the beef breeds, and has sound grade Shorthorns at one of his farms here. He has three farms of 160 acres each, one near the state fair park, one in La Prairie and the third further west. He intends eventually to have them stocked with thoroughbred beef cattle.

## NO SONG BIRDS FOR FINE HATS

Western Milliners Join Eastern Men in Audubon Society Agreement.

By the action of the Millinery Jobbers' association now in session in Milwaukee the use of song birds as hat decorations will be discontinued and in a few weeks this pernicious style of hat decoration will belong to the dark ages. Nor will the milliners carry birds of the song variety in stock. The meeting is being held at the Pfister hotel, Milwaukee, and delegates from all over the country are present.

**Many Present**  
More than one hundred millinery jobbers from seventy-three business houses, representing \$25,000,000 of capital, are attending the meeting which opened in the club rooms of the hotel yesterday afternoon. As they represent every large millinery jobbing establishment between Ohio and the Rocky mountains, their action on the bird trimming question will be of widespread influence.

**Stands by the Birds**  
The eastern jobbers have taken a stand in favor of abolishing the trade in these birds, and it is their action that western men take similar action, because, it is said, the westerners buy imported goods from them and compel keeping up the stock. The Wisconsin millinery jobbers already have concurred in the wish of the eastern houses.

**Audubon Society**  
The Audubon society made a great deal of trouble for the eastern jobbers in endeavoring to abolish the trade in these particular birds," said Second Vice President C. T. Macaulay of Columbus, O., after the jobbers' meeting yesterday. "So the jobbers sought a compromise. They agreed not to handle song birds, gulls, terns, and sea birds, provided the Audubon society would not meddle with them for handling other birds. This procedure was a stroke of diplomacy, for there have been comparatively few of these birds in the trimming, domestic fowls being mostly used. However, the game wardens have been unusually vigilant in New York and other states, so that the birds would be in the nature of a great risk to handle the forbidden birds. In addition a federal law prevents their shipment.

**Would Extend Peace Wing to West**  
The agreement established peace between the jobbers and the society in the east and it is desired to extend the movement all over the country. As the board of directors have presented the matter to the association in the form of a recommendation, there is a strong likelihood that the meeting will adopt the suggestion.

"Our association will also bring up at tomorrow's meeting the question of a bureau of credit, and of allowing concessions to small markets by permitting rebates on railroad fares. The meeting today was occupied with the reports of officers and committees. The principal recommendation made was that every possible effort should be made to secure harmony with the eastern houses. We make no price agreements nor we ever intend doing so."

**Harrison-VanDerveer**  
Miss Cora M. Harrison of this city was married at Buffalo, N. Y., on May 17, to O. VanDerveer of Randall, N. Y. The newly wedded couple will spend the summer in the Adirondacks.

The big sign on top of the Rock River Machine company plant was blown over and broken early in the week. It was eighteen feet long and five feet high.

## DENTISTS CLOSE THEIR SESSIONS

ELECT DR. HART PRESIDENT FOR COMING YEAR.

### THE NEXT MEETING IN BELOIT

Interesting Lectures and Clinics Were the Program for the Session.

Dr. R. J. Hart of this city will act as president of the Southern Wisconsin Dental society during the ensuing year. He was elected to that position yesterday afternoon, as the organization drew to a close. Other ninth annual convention of the officers were elected at the same time as well as delegates from the society to the National Dental association meeting, which is to be held at Nashville, Tenn.

**Delegates to Nashville**  
Following were chosen to represent the society at Nashville: Drs. Ira M. Holsapple and Charles T. Pierce, of this city; Sanford, Valley; Danforth, Sheboygan; Mills, East Troy; Lemon and Owen, Brookfield; Campbell, Lake Geneva; Carey, Clapham, Bradley, and Reed, Beloit; Rudolph, Muscoda; Merlan, Lancaster; Hale, Mineral Point; Pollatz and Baker, Madison; Hitchcock, Albany.

**Hart Made President**  
To succeed Dr. C. S. Bradley of Beloit as president of the society, which is of growing importance in the state, Dr. R. J. Hart of this city received a unanimous elective vote. S. H. Chase of Madison was elected first vice president; G. M. Harlow of Lancaster, second vice president; W. G. Hales of Mineral Point, treasurer; and G. W. Collier of Clinton, secretary.

**Beloit Next Year**  
As the meeting place for the next annual convention Beloit was fixed upon. Votes of thanks were extended to the committees and to the speakers and conductors of the clinics who took part in the meeting, which was unanimously regarded as one of the most successful which the society had held.

## Y. M. C. A. BOARD HOLD MEETING

First Session of the New Board of Directors Was Held Yesterday.

The first meeting of the new board of directors of the Y. M. C. A. met Wednesday and elected officers as follows: F. F. Lewis president; Dr. E. E. Loomis vice president; A. Crawford secretary. W. G. Palmer treasurer. F. T. Richards, recording secretary. Harry Garbutt was elected a member of the board to fill the vacancy caused by the resignation of H. E. Hanson. It was the first meeting of the new board and much enthusiasm was shown. Several expressed their willingness to serve on committees and do other work connected with the association.

## PARIS HAS A NEW ROMANCE

Australian Millionaire Leaves a Fortune of \$7,500,000 to a French Portrait Painter.

Paris, May 22.—A romantic story came to light yesterday with the announcement that Louis Fournier, a young painter of much promise, who recently became the Paris correspondent of the Pall Mall Gazette, had fallen heir to \$7,500,000, left him by his friend, Harold F. T. Barker, late of Sydney. They became acquainted several years ago in Switzerland, where Fournier was exhibiting a portrait of Sarah Bernhardt, which took the Australian millionaire's fancy. Another purchaser forestalled him, however, in the person of the Comtesse de Majendie, who is well known in Paris and Trouville. This rivalry led to an acquaintance between the painter, the millionaire, and Mme. de Majendie. The painter subsequently became engaged to the comtesse's daughter, Elise de Majendie, who is now stopped at Trouville with her mother. Comte de Majendie, it may be added, was killed while in central Africa during his honeymoon. The comtesse and her daughter not long ago went on a cruise to Australia in search of health. Barker, who recommended the trip, left quite recently for Rennes with a view of establishing his residence there. He fell a victim to typhoid fever only a week ago.

His solicitor has informed the fortunate young painter that the whole of the Australian's fortune, including \$7,500,000 in money and an estate in Westmoreland, is bequeathed to him. Fournier's marriage with Elise de Majendie takes place next November. There is, however, one little cloud in the horizon. Barker's sole surviving relative and sister, Esther Barker, alleges the existence of a later will dividing the property among herself, the Comtesse Majendie, and Louis Barker, and so this romance may have a sequel in the probate courts.

**Milwaukee News:** When the assembly defeated the rate bill, the Governor La Follette insisted that if a whole lot could not be had, nothing more should be done? Instead he worked up the half loaf maximum rate bill and the assembly, which had refused to pass the commission bill, which was of far greater merit than the maximum measure, passed it. Why can it not show as much common sense in dealing with the primary election question?

**Licensed to Marry:** A marriage license was issued yesterday to Peter Hoff and Emilie C. Peterson, both of Beloit.

## ABNER DANIEL'S QUAIN SAYINGS

Sage of the South Talks About the Future of the Railways.

Here are some more of the sayings of Abner Daniel. This story will begin in Saturday's Gazette and will continue until finished. It is a good wholesome story and one which will please the young readers, and interest the heads of the family. Abner was a funny fellow and said quaint things but they are usually all true and worth reading.

"I wasn't as old as you are by five years when the one I am talking about passed away. Just after me an' her'd come to a understandin'. I've seed women, women, women, since I seed 'er corpse that day amongst all that pile of wild flowers that old an' young fetched from the woods whar me an' 'er used to walk, but I'll live to be as old as that thar hill I'll never forget my feelin'." I kin see 'er right now as plain as I did then, an' sometimes my heart aches as bad. I reckon you know now why I never got married."

"It larnt me the truth about the after life. I know thar's a time to come an' a blessed one, or the Lord never would 'a gived me that use of it. She's som's an' her meet I'll not have a wrinkle an' I'll be able to walk as spry an' hopeful as I did when she was heer. Thar ort to be punishment reserved for hardened fools that separate lovin' young folks be'case one or 't other hain't just so many dollars tied in a sac."

"I tried to put a moral lesson into what I said just now," he smiled mechanically, "but I missed fire. Alf's sufferin' is just unselfishness pure an' undefiled. He wants to set his children up in the world. This green globe's a sight better'n some folks thinks it is. You kin find just a little speck o' goodly in mighty nigh ever' chestnut."

## VISITED A NOTED BREEDING FARM

David Griffin Has Just Returned from a Noted Minnesota Stock Farm.

Mr. David Griffin has recently returned from the Inter national stock farm company's farm bringing with him his mare "Silverette" whom he has kept there for the last month in describing the farm. Mr. Griffin said, "It is situated at Hamilton, a suburb of Minneapolis and owned by W. M. Savage. Here are kept three of the greatest stallions ever owned by one farm or one man. They are Directum 2:05 1/2, Dan Patch, 1:59 1/4, Roy Wilkes 2:06 1/2. The farm consists of six hundred acres of fine pastures and hay land. The barn was originated by Mr. Savage. It is an immense structure four hundred feet long, well lighted and ventilated. The cost of the building was \$5,000,000. Here are kept high class mares and horses from all parts of the world.

Directum, stired the champion four year old trotting stallion of 1902. Directum Spear, who has a record of 2:11 1/2. The superintendent at the farm is Mr. H. C. Hersey, an experienced horseman. Directum is the champion stallion of the world, and is valued at \$100,000.00.

**Will Come With Band:** A report has been circulated that the Rockford camps will not be able to come to the Woodman picnic. This is a mistake for Mr. Fisher has heard from them to the effect that a big band has been hired for the occasion and that transportation has been bought. The Rockford camps expect to turn out on June fourth in full force.

**Attention, Comrades:** Headquarters Post, No. 20, G. A. R., Jansville, May 22nd, 1903. Comrades: At the regular meeting of this Post, to be held this evening, business of importance will be presented. A full and prompt attendance is urgently requested. By order of A. F. Lee, Com.; C. D. Childs, Adjutant.

New York Telegram: Chicago women have a scheme for living on 10 cents a day by the aid of science. This will work all right until a trust raises the price of science.

Achtem Globe: All of the complimentary terms such as accomplished, brilliant, handsome, charming, gallant, etc. fade into insignificant old age before one word that conveys more that is complimentary and that word is "patient."

Madison Journal: If the assembly persists in its refusal to concur in the senate amendment it means that at least three years must pass before the people of Wisconsin will have a chance to experiment with the primary election principle. This will be unfortunate. The members of the assembly should carefully consider their responsibility in this matter.

## INSPECT SYSTEM OF INTERURBAN

Chicago Capitalists Visited the City Yesterday for a Few Hours.

About thirty Chicago capitalists spent a few fleeting minutes in this city yesterday, the guests of the interurban management. An entertainment committee of Jansville, Beloit, and Rockford people, including T. S. Nolan and A. E. Bingham of this city, accompanied the party. The gentlemen who made up the party were interested in a prospective electric road and were in quest of information. As they left Rockford at 11:35 a. m. and were obliged to return before 3:00 p. m., their stay in this city was necessarily brief.

### PRESS COMMENT

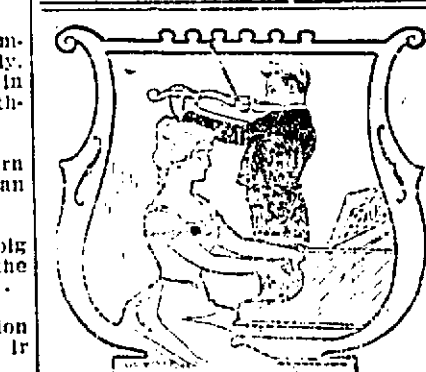

Kansas City Journal: On the day that president Roosevelt arrived in Topeka triplets were born to a mother in Chanute and also to a mother in Humboldt. Kansas doesn't profess to go deeply into sociological problems such as the president's theory of race suicide, but she always strives to please.

Washington Star: Governor Pennington has so many ideas about how a newspaper should be run that it is remarkable that Mr. Quay does not come forward as a backer and persuade him to start a journal of his own.

Milwaukee Sentinel: The auto men are about to declare war on the police because of the determination of the latter to dehorn the devil wagons. Meanwhile the pedestrian must keep his eyes open and be prepared to jump thirty feet.

New London Press: A state law requiring the licensing of horse shodders would be of more benefit than the barber law recently passed. There is suffering caused among horses caused by inexperienced shodders. If a barber is pulling the face of a man, he can protest or knock the barber down, but the poor horses have not this gift.

La Crosse Press: The primary election question should be settled in this legislature. It can be settled on no other possible basis than the very reasonable compromise offered by the senate, a compromise perhaps not offered by that body in good faith but nevertheless containing all the essentials the La Follette organization has been fighting for.

Wednesday afternoon, the college team again demonstrated the fact that they are playing fast ball by defeating the strong Northwestern university nine of Watertown, by a score of 11-5. Northwestern started out with things apparently their own way; however, with score 4-0 against them, the college boys took a race and won out with three scores to spare. The game was a "nerve strainer" from start to finish, both sides playing fast ball. Crandall pitched a steady heady game, keeping the hits well scattered. The game next week with Marquette college of Milwaukee which comes off Thursday, will practically decide the championship of the small colleges of the state. Northwestern has defeated Sacred Heart and St. John's college teams, while Marquette has easily defeated St. John's St. Lawrence and Northwestern. We are justly proud of the work being done by the work being done by the Milton college team and hope it will continue throughout the season. Batteries: Krumm and Koch; Crandall and Bond; Umpire M. Mich., who arrived in time to be with her during her last moments. Although her illness was of short duration, everything that loving friends could do was done to ease and comfort her, but all was in vain. She passed peacefully away in the sleep that knows no awakening. Miss Haskens was a member of the Presbyterian church at Broadhead and a consistent Christian. Funeral services were held at the home of Mr. Palmer, on Sunday afternoon, at 2 o'clock, conducted by Rev. J. W. Commey. Music was furnished by Mr. and Mrs. Arthur Miller, Mr. Frank Van Syke, and Miss Ina Van Syke. The crowd of friends who followed her remains to their last resting place showed that she was highly esteemed by all. She was tenderly laid to rest by the side of her grand mother.

## TRADE CONDITIONS

The alarms which have been sounded during the past two years regarding the trade relations between the United States and certain other countries of the world find no justification in the figures of our commerce up to this time. The three countries which have been mentioned from time to time as likely to decrease their importations from the United States are Russia, Austria-Hungary and Germany. A study of the latest figures of the Treasury Bureau of Statistics regarding our exports shows a steady growth in the trade relations with all of these countries, and indicates that our commerce with each of them is likely to be larger in the fiscal year, than in any previous year in the history of our commerce. This is true both in exports and imports. To each of these three countries our exports are steadily and rapidly increasing and from each of them our imports are steadily and rapidly increasing.

This is especially marked in the figures of our trade relations with Russia in the present fiscal year. The latest figures of the Bureau of Statistics are for the 9 months ending with March. They show that our exports to Russia in that period were nearly double those of the corresponding period in any year in the last decade, and that our imports from Russia are also steadily and rapidly increasing, being double those of 1899 and three times those of 1894. In both imports and exports the figures of our trade with Russia are about three times as large, in the 9 months ending with March 1903, as in the corresponding months of last year. In imports from Russia the figures of the present year also show a marked increase over last year, and it is quite apparent that our imports from Russia in the present fiscal year, will be the largest in the history of our commerce with that country. Our principal imports from Russia are hides and skins, wool, licorice root, and flax, for all of which there is a constantly increasing demand, among manufacturers. Our principal exports to Russia are cotton, of which the United States produces three-fourths of the world's supply, copper of which we produce one-half of the world's supply, agricultural implements and machinery.

**PARTY HARMONY**  
The question of party harmony has been suggested by the Fond du Lac Commonwealth, and the editor advances arguments based on the importance of united effort on national issues.

While the spirit exhibited is commendable, there is nothing to indicate that any honest effort will be made in this direction. There are always two parties to a disturbance, and more than the consent of these two parties is necessary to a settlement. It is among the possibilities that the administration might consent to a harmony proposition if it included a long list of concessions, and a code of penance, but it is extremely doubtful. The men who do not agree with the governor on every proposition are not regarded as republicans. In other words, La Follette has attempted to swallow the party, and the men who refuse to be swallowed have nothing to harmonize.

These are the conditions with which Wisconsin republicanism is confronted at the close of the legislative session. While they are deplorable, they are better in some respects than heretofore.

Many people throughout the state, who have placed implicit confidence in the governor, have come to realize that he is not infallible. They do not question his honesty but they have discovered that he is erratic and unsafe as a leader, and that he is also a disturber.

The republican party cannot harmonize with La Follette any more than democracy can unite with Bryanism. Principles are involved that are vital to the parties perpetuity. No faction of a party can long exist on a platform that advocates class distinction and encourages class hatred. This is the weakness of La Folletteism. Corporations are denounced as oppressive, and the enemies of "God's patient poor." Corporations represent capital and it is always easy, but never commendable to array the masses against capital, in any form. The age is naturally socialistic in tendency, many people believe that wealth should be evenly distributed, and the man who encourages this doctrine, however honest may be his purpose, is a dangerous leader.

The republican party cannot afford to seek an alliance along these lines and it will never consent to the proposition. The party is strong enough to get back to its moorings, and this it will do within the next two years. When the good work is accomplished many men will wonder why they ever became fascinated with a phantom.

**THE NEW GAME LAWS**  
The game law bill was among the last to receive attention at the hands of the legislature. It provides for many radical changes, and while it will disappoint pot hunters and men who make a business of shooting for the market, it will be found to be the best game preserver that the state has ever enjoyed.

Market shooting is absolutely prohibited and a limited number of game wardens will be able to enforce this provision. The man who shoots, water fowl for the market is known not only by the warden but by every sportsman. A few of these worthless controlled miles of the shore at Lake Koshkonong last fall and any enterprising warden might have bagged the whole covey in a days time.

This feature of the law will be appreciated by men who shoot for pleasure, and who never need watching by a game warden. The fifteen days spring shooting will also be appreciated, and when the bag is confined to fifteen birds, it will not mean very much in the way of slaughter.

Assemblyman Valentine is entitled to much credit for the measure as finally passed. He was able to meet every objection presented from the standpoint of an intelligent sportsman.

The carpenter's social held in the city last Wednesday evening presents one of the helpful features of organized labor. Men engaged in the same calling whether industrial commercial, or professional have many interests in common. The development of social life is always desirable, and the betterment of conditions along right lines is of the highest good.

The game wardens are evidently expected to spend all the money in sight. They got away with \$72,000 in the last eleven months and had a merry time spending it. The force can be reduced under the new law, without detriment to the service.

Congressman Bailewick is creating quite a commotion in Madison. It is safe to say that there will be something doing when the republican party takes up the work of reorganization.

It is now estimated that 1,000,000 immigrants will come to the United States this year. This speaks well for the popularity of Free America.

The Russian outrages recently perpetrated at Kishineff indicate that civilization has not taken very deep root in that benighted land.

**PRESS COMMENT**  
Madison Democrat: The taxation problems in Wisconsin are growing more and more unmanageable. Somehow the tax commission, the governor and the legislature have not been able to settle difficult questions that have puzzled experts for a century. As our life and business and investments become more complex these questions become more difficult and only the men who form their opinions on the narrowest views are dead certain that they are right.

**Premier is incensed.**  
Paris, May 22.—Premier Combes was given a vote of confidence by the chamber of deputies after a violent debate on the government policy in making war on Roman Catholic congregations. The vote stood 313 to 237.

**More Finns Are Exiled.**  
London, May 22.—Four more prominent Finns have been exiled—the two brothers Brofeldt of Knopio, the barrister Procope of Tammerfors and M. Sikio, manager of the Nyslott branch of the Northern bank.

**Shelley Relics At Auction.**  
London, May 22.—Copies of the poet Shelley's broadside, entitled "A Declaration of Rights," and another dealing with the condition of Ireland, printed in Dublin in 1812, were sold at auction for \$2,700.

**Explosion Injures Nine.**  
Marquette, Wis., May 22.—Nine men were injured, three probably fatally, by the explosion of a box of torpedoes in a section house at Atholstone.

**The Doctor's Advice.**  
The doctor looked serious.  
"You should be very careful for at least a month," he said.  
"Is it as bad as all that?" asked the patient anxiously.

"If the result is to be as satisfactory as I would like to have it, you cannot follow the rules that I lay down, too carefully."

"I will do, exactly as you say," said the thoroughly alarmed patient.  
"Am I eating too heartily?"

"Much too heartily. You should eat simpler food and not so much of it. If you follow my advice you'll cut your butcher's and grocer's bills just about in half."

"I'll do it, doctor."

"You ought to take more exercise too," continued the physician. "How do you go to your office now?"

"By bus."

"Stop it at once. You must walk to and from your office every day, rain or shine. Do you ever go to the theatre?"

"Quite often."

"You mustn't do it while you are under my care. How about smoking?"

"I smoke of course, but only in moderation."

"Don't smoke at all!" instructed the physician. "Throw away all your cigars, and don't buy another for thirty days at least, or I'll give up the case."

"I'll do it, doctor; but—but—"

"Do you drink?"

"Occasionally, but I—"

"Stop it entirely."

"A little claret, now and then, ought not to—"

"Not a drop at any time."

"All right, doctor, what next?"

"Nothing. Follow these instructions closely for thirty days, and by that time—"

"Yes," said the patient eagerly. "By that time what?"

"By that time," repeated the doctor "you ought to have saved enough to pay me the balance due on that little bill you have owed me for a matter of about eighteen months. Good day."—Tit-Bits.

## MALLWITZ WANTS CITY TO PAY UP

NOTIFIES CLERK OF APPEAL TO CIRCUIT COURT.

### JUDICIARY IGNORED CLAIM

Council Committee Made No Report on the Milton Man's Alleged Injuries.

If external evidence may be accepted August Mallwitz of Milton intends to make a fight to the finish of his claim for two thousand dollars damages for injuries due, it is alleged, to a defective road on Milton avenue. This morning he filed with the city clerk, through his attorneys, Rogers and Rogers of Fort Atkinson, a notice of an appeal to the circuit court from the city's disallowance of the claim, his bond was also filed.

**Wants Two Thousand.** No action has been taken by the common council, as a body on the Mallwitz claim for damages. Notice of injuries was filed and in due form a claim for two thousand dollars was later filed on Jan. 26, 1902. The accident occurred Oct. 17, 1902, when he was bringing a load of wood to the city and the front stakes broke, throwing him down upon the tongue and breaking his leg near the ankle. When his claims for damages was filed it was referred to the judiciary committee, who never reported upon it.

**Other Damage Claims.** Two other possible damage suits are before the city, both of them based on alleged defects in sidewalks. Neither has ever been brought before a council by the judiciary committee to whom they were referred. At the first meeting of the new council Rose Davey's claim for one thousand dollars was presented, notice of her injuries, which occurred near the Baines warehouse, having been filed on Feb. 2. No claim has ever been made by Nell Gillespie, who filed a notice last October that he had received injuries from falling on a defective sidewalk.

**Innocent Beauties.** "The 'Innocent Beauties' gave a good vaudeville performance at the opera house last night. It was bright and clean, and possessed many excellent features. The management expressed disappointment that ladies did not attend the performance. It is true that ladies could have attended with as much propriety as they do come to operas."

**Collins-Concoran.** Wednesday evening, May 21, 1903, at 9 o'clock at the Mary Kimball mission, Rev. Mary Kimball pronounced the words that united William Hugh Collins and Celia Concoran as husband and wife. Both parties are well known here, and friends will extend congratulations.

### NEWS OF THE CITY IN BRIEF.

**New Interurban Cars:** One of the new passenger cars on the R. B. & J. line has been named Newcombe, after the president of the company, another is called Martha, after the daughter of general manager Clough and the third is named Mary, after the sister of superintendent Nutt; the baggage car will be known as "Little Willie" after W. E. Davis, the Cleveland expert on electric railway matters.

**Hotel at Last:** Operations were begun yesterday on Beloit's new hotel. The contract for excavating was let to Owen Baker and ground was broken this afternoon. It is hoped that the structure may be completed by Oct. 1. If the weather is good this is not a vain hope. With the beginning of work citizens begin to feel that their anticipation may be fulfilled and that the much talked about hotel is to be something more than a pipe-dream.

**To Hear Roosevelt:** Action may be taken by the G. A. R. Post with a view to going in a body to Rockford on June 3rd, the day when President Roosevelt will speak in that city. No definite determination has been expressed by the organization, but members have discussed the project freely on the streets of late.

**Socialists Still Busy:** Although all other political organizations are resting on their oars the social democratic party is still sawing wood, holding meetings on the fourth Sunday of every month. They have rooms in the Williams block. The fourth ward organization is also keeping up its meetings.

The last party of the series given by the Tribe of Ben Hur will take place Thursday evening, May 28th at Central hall. Music will be furnished by Smith's orchestra.

Following a performance by the "Innocent Beauties" who will disport themselves upon the Myers Grand stage Saturday night the Beloit Free Press expressed itself in the following vein:

**Art League Meets:** The history class of the Art league met with Mrs. James Waddles this afternoon.

## ARE SHOOTING AT MONROE TOURNAY

Messrs. McVicar Take Their Guns to Green County Seat Today.

Will McVicar and A. H. Klenow went to Monroe this morning where they will take part in the shoot in progress today. It is being given jointly under the auspices of the Fort Wayne and Monroe Shooting clubs. A number of good prizes have been hung up, and the local men hope to cop one or two, or at least to get in form for matches which will be pulled off in this city at an early date. Nearly all of the Janesville shots are suffering from lack of practice that will need to be overcome speedily if a proper showing is made.

The Beloit interurban management is to give an outing to the kindergarten children of Beloit and Janesville next Tuesday. Ninety children from Beloit will be taken to one of the pleasure grounds between there and Janesville on a special car. The car will then go to Janesville and bring the little ones from that city back to the same park for the day.

### His Bequest to Asylum.

Half a dozen congressmen were in the democratic cloakroom, the talk being of strange bequests. Congressman Fitzgerald said the oddest he ever heard of was that left by a Brooklyn man to an orphan asylum. "What was it?" asked Congressman Ryan. "Ten children," replied Fitzgerald. Then they all went to luncheon and Ryan took the check.

### Daurignac's Prison Pastime.

## RECORD CLIP TO ROCKFORD

INTER-URBAN MAKES FAST RUN FROM JANESVILLE.

### SIXTY-SEVEN MINUTES' TIME

Car Narrowly Escapes Collision On Home Trip—Conductor Fails to Give Notice at Siding.

For speed the trip made by a special car on the interurban yesterday, bearing a party of Chicago capitalists, is not likely to be discounted at any early date. Sixty-seven minutes is the record from Baker's drug store in this city to the station at Rockford.

On the up trip the time made was rapid, about fifty miles an hour being attained for a stretch of about ten miles. The car was the best on the line, "Rockford, No. 1," and was in charge of Motorman Brinkman and Conductor J. S. Dokerty.

Something went awry on the dinner plans for the party. The proprietor of the Nelson house expected them at 1:10 p. m., and was in readiness for 25 guests, but was a guest appeared. At a little after 2:30 the party reached Rockford in time for a brief lunch before boarding the 2:50 train for Chicago.

As the special was returning after the record breaking run it narrowly escaped a mix-up in a disastrous collision, due to the failure of the conductor of the regular to report at the siding.

Instead of calling up over the phone he gave the two bell signal to go ahead. The car started out at its usual clip and shortly after leaving the siding the motorman saw the special bearing down upon them at a merry pace. Fortunately the meeting was not on a curve, and by backing up it was possible to reach the siding and pass in safety.

This narrow escape, it is said, will probably mean a head off for some one. The management is extremely desirous of carrying out every rule to the letter, and penalties have been frequently imposed for failure to observe the injunctions which were issued soon after the coming of the new superintendent.

## WANT TRIANGULAR LABOR DAY PICNIC

Beloit Proposes That Rockford and Janesville Join Hands With Them on Labor Day.

Beloit union men are vigorously touting the cause of a tri-city Labor day celebration to be held, preferably, in Beloit. The cities interested are Beloit, Janesville and Rockford. No action has been taken as yet by the Janesville Federated Trades council whether approving or disapproving of the project, and it will undoubtedly be voted upon at next Wednesday's meeting. At that time it is expected that Beloit committeemen will be present to urge their purpose. As the Janesville Trades council has already engaged speakers for that day they would probably be transferred to the city declined upon for the joint celebration.

There is a growing sentiment among local union men in favor of holding the celebration this year down town, instead of going off up the river to a park where none but union men and women will assemble. They prefer to remain in the center of the city where the speeches will draw a larger audience.

## MANY FISHERMEN AT INDIAN FORD

Daily Pilgrimage of Friends of the Rod to Favorite Spots—Many Good Hauls

Devotees of the rod are in a seventh heaven of delight at present and rain or shine the exodus of sportsmen to Indian Ford each morning continues. At night they almost invariably return well loaded down. In the city the Monterey dam and the Ford mill dam and the adjacent railroad bridge are favorite spots for the disciples of Walton, especially in the late afternoon and early evening as the day's work is completed.

Messrs. Leffingwell, Hart, Hockett, and Buchanan report a gross catch of eighty pounds at the Ford one day this week.

Threatening clouds early this morning kept a couple of parties from making the trip to the Ford but there were others who could not be deterred.

## TRAINING FOR THE BIG MEET

INTER-SCHOLASTIC AT MADISON WEEK FROM TOMORROW.

### EIGHT LOCAL MEN ENTERED

Coach Norris Is Unable To Speak With Certainty of Outcome—Too Many Other Fast Men.

Finishing touches will be applied during the coming week to the physical condition of eight high school students. On Saturday, May 30, they will compete at the gilt edged event of the Wisconsin interscholastic athletic calendar, the "Interscholastic." As usual the field and track meet, which is open to all schools in the Wisconsin interscholastic association will be held at Madison, Decoration day having been chosen as the date this year.

To Enter Eight Men.  
Myers, Kent, Waters, Carlo, Fredendall, Davis, Caldwell, and Wright are the men on whom the Janesville high school will pin its hopes. Their chances in the meet are open for speculation. While several of them have chalked up some clipping scores, so have other high school athletes on every hill and in every dale of Wisconsin. Coach Norris isn't making any definite promises.

What the Coach Thinks.  
"There are a number of schools that have made marks very nearly the same as ours," said Mr. Norris. "Kent has done the mile in the vicinity of 4:58 and so have other runners who will be at Madison. It is the same with the quarter at about 2:57, and not quite so good with the 200-yard dash which we have not made better than 25 or thereabouts. Our relay team which consists of Myers, Kent, Fredendall, Davis, and Caldwell, four of whom will run, ought to be a place winner."

## TOBACCO PLANTER A GREAT INVENTION

Maurice Smith, of This City, Was the First to Think Out the Plan.

By some mistake the credit for the invention of the tobacco planter was credited to W. Smith in last Monday's paper when it should have been given to Maurice Smith, long a resident of this city. Mr. Smith is still firm in his belief that he invented a machine that revolutionized the tobacco industry and that all other planters were the outgrowth of his invention. He talks quite interestingly on the subject of tobacco planters and tells how he came to think his scheme out. His patent rights have expired some time since.

AL H. H. WILSON—TO-NIGHT

AL H. H. Wilson appears this season in a new romantic play written by Sidney R. Ellis, entitled "A Prince of Tatters," with Charles H. Yale and Sidney R. Ellis will present their talented star for the third starring tour.

It is cleverly constructed, clean and wholesome, telling a strong dramatic story, enlivened by refined comedy, brightened by the introduction of beautiful melodies and illustrated with beautiful and historically correct scenic effects.

The action of the play occurs in old New York in the year 1700, the locality being Fort George, at that time one of the most picturesque and romantic spots on Manhattan Island. It is amid these romantic environments the story of the play is told.

Prince Hugo Von Reppert during childhood had been married to Lady Helen, the daughter of an English father and a German mother. Lord

Edward Grey, Lady Helen's uncle and guardian, reared her after her mother's death and did all he could to make the child wife forget her husband.

The Prince had been exiled from Austria because he had killed in an affair of honor, one who spoke lightly of Lady Helen's mother.

Years later Prince Hugo disguised as Colonel Schuman and dubbed "Prince of Tatters" by his marauding companions, meets Lady Helen on Long Island and rescues her from insult. Though he does not know her as his wife, he knows her to be beautiful. After overcoming much opposition, Prince Hugo wins his wife, the English Governor's favor, and Lord Grey's consent. The awakening love of his wife and the effect of his sweet songs upon the governor make a happy ending to a brilliant play.

## Free to All Women.

Several Drug Stores in This City Will Give Away to Every Lady Absolutely Free, a Trial Bottle of the Most Famous Female Remedy Known.

Zoa Phora is an Absolute and Positive Cure for All the Complaints and Weaknesses of Women—It Brightens Their Eyes, Freshens Their Blood, Gives Them New Strength and Vitality and Corrects All Irregularities.

A Trial Bottle Absolutely Free to Every Lady Next Saturday and Monday—Call on Your Druggist for it.

MRS. CHAS. N. WEST, Chicago.

The experience of the woman who has used Zoa Phora is no less interesting than remarkable. It tells of pain and suffering from carelessness and neglect, fully and honestly. It tells of turning to the one true "woman's friend" when all doctors and all other remedies have utterly failed to even bring relief from pain, much less cure the disease. It's good for the young girl just budding into womanhood. It is a staunch supporter of the woman approaching the twilight hours of labor pain. It never fails to bring relief to weak organs, displaced organs or female troubles of any nature. Suppresses a period, changes of life, lactation or too early a change of life, liver or bladder troubles, corrects falling or displacement and builds up the system. In the hundreds of cases where it has been used as a last resort, it has never failed and the grateful woman rises from the bed of pain and calls it blessed. Here is a letter that will illustrate what a place the remedy has in the hearts of women who know it:

Mrs. Chas. N. West, 19 Abbott Court, Chicago, under date of Feb. 5, 1902, wrote as follows: "For years I suffered from weakness, often accompanied by inflammation. Every month I was obliged to give up my work and go to bed, and my suffering was intensely painful."

"Through kind advice I used Zoa Phora and this month the pain has almost entirely disappeared and I am cured of the disease."

### The Properties of Metals.

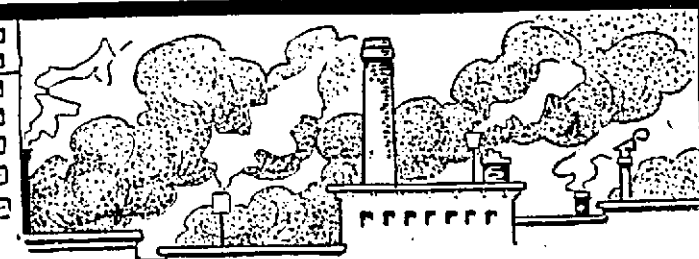

Mix 13 per cent of manganese with steel and the alloy becomes practically non-magnetic. Nickel and aluminum steel alloys are, on the other hand, more magnetic than ordinary steel.

### Settled Long-Standing Claim.

Mrs. George A. Graves of Ogden, Utah, recently received a check from the United States government, being her share of a claim that has been pending for 105 years.

### Foolish Fears.

It seems to us that some of the college presidents are permitting their apprehensiveness to get the better of them when they express the fact that the colleges will be studentless in a few years unless the graduates raise families and send their boys to alma mater. It is easy to demonstrate that any healthy boy can be taught a class yell in fifteen minutes, if proper patience and ingenuity are exercised.

### REPORT OF PRIVATE CHANG

"In the down town business district where everyone is rushing and bustling every moment of the day, all are working on their nerves, and are either irritable or melancholy. They are troubled with palpitation, dizziness, crave acid drinks, and suffer severe pain whenever the stomach is full or empty. Sometimes they have no appetite and other times the appetite is excessive. All this is particularly true of women workers, thousands of whom are pale and constipated, and have frequent attacks of nausea, and vomiting at night; also much female weakness is due to dyspepsia."

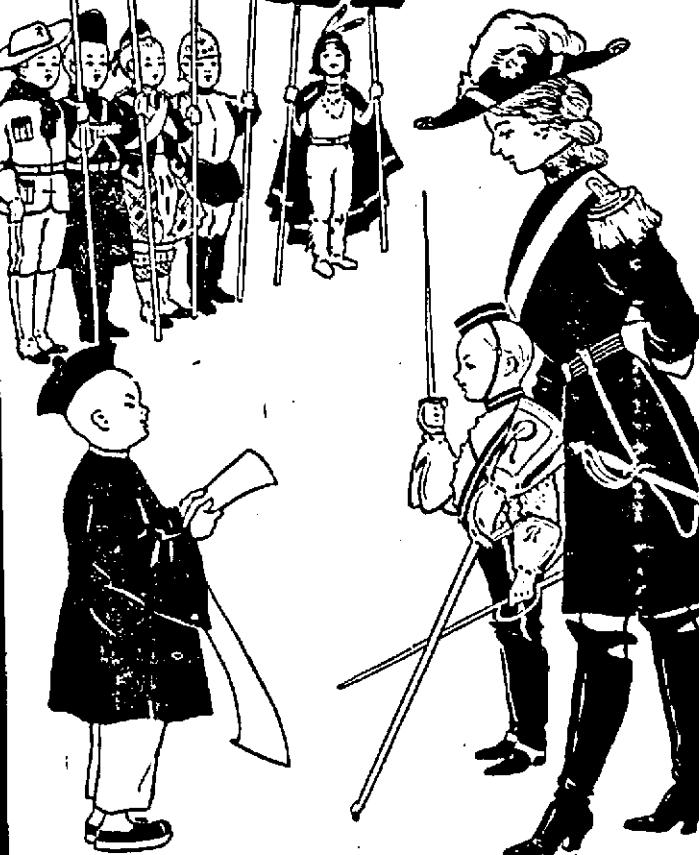

"I inform the people that all this suffering will quickly pass away and they will regain their health if they will use Rexall 'Dyspepsia Tablets,' which may be obtained at the store of Smith Drug Co."

## Not a Government Risk.

Some recent Washington dispatches called the attention of the public to the fact that the taking of the cost of the irrigation of these western lands lately designated by the Interior department for that purpose as a basis the estimate of \$5 an acre, which was the average quoted at the time the bill was under discussion, is entirely too low and the cost of construction is likely to be double that figure. This, says the Boston Transcript, has called out a rejoinder from the National Irrigation Association through its secretary. He shows that to be self-evident to any one taking thought upon the matter that the cost will vary widely with the conditions. He admits that \$5 an acre would hardly cover the average cost. That estimate was probably based on private irrigation enterprises which would naturally encounter more favorable conditions.

But whether the work costs much or little does not seriously affect the general proposition; the main point is that whether the work costs \$5 or \$25 an acre, the farmer or stocker who gets the benefit of the thus irrigated and fertilized land must pay and not the government. The secretary of the association estimates that the expense of providing these lands with water will range all the way from \$1 to \$50 an acre. Some of the simpler schemes involve merely the digging of a big ditch in order to secure water for thousands of acres, while others necessitate the building of big masonry dams and the construction of expensive canals.

**Shocking**  
A fearless young lady in Hocking, went out with a hole in her stocking. This lady then said, "With a loss of her head, I don't give a darn if it's shocking!"

### Briefs from Bliville

(Atlanta Constitution)  
"What we need in this country is less law and more true livin'. Don't give 'way to the blues. This is a bright world, and the prospect is the next one's blazin'. All can't have the wisdom of Solomon; but come to think of it, Solomon didn't have as much as he thought he had when he came back to take stock. Keepin' the saw in the log is what makes business. Only trouble is some folks don't keep it goin' after they cut it."

### Gas as Fuel.

Recently Mr. H. A. Humphrey delivered a lecture before the London Chamber of Commerce, says the Electric Review, in which he stated that by using the cheaper form of gas, known as "producer" gas, at least one-half of the total consumption of coal would be saved, this result being due to the greater efficiency of gas over coal as a fuel.

### Has Served Road Faithfully.

With the probably unrivaled record of having traveled 1,500,000 miles, Jacob M. Zebley will be placed on the pension roll of the Pennsylvania railroad on March 1, after fifty-six years of continued service as baggage master. Zebley, who is 70 years old, began his career on the railroad in 1847.
